Hallo Sir!

Been active on the site every 1-2 days... ever since the MC server went down, I do miss TWK but it'll be hard to revive it now, it's a tad bit dead atm. - But I'll still remain active!

yeah bro, the server was literally my childhood haha. ngl i could probs get AFriendlyPaedo, arvenhor &co back on, but a lot of them have moved on to other games now. If twk ever comes back up, ill happily play. wonder how many other staff members are still active.

Well, Me, Chifilly, General Donna and React/Naiken are still all in contact 😊  
- Me, Chif and React still play a lot of games together... - Mainly CS:GO, R6 Siege, GTA 5 and such now a'days.

Yeah I have a fair few friends that would play on the server if it was put back up again. play obsessively. there also seems to be a high demand for servers with a lot of history at the moment, just saying.
