Yeah... This server was in the good days of mc. The best part about this server was the community. The return seems unlikely but you never know...

Holy hell, the website is still up.

+1 if we should bring this thing back.

I agree Mr.MattR. - If anyone wants to chat/discuss getting some servers back then hit me/our group up.
- We still got a little group of us that still play games.

We got a teamspeak:

london1.teamspeak.co.uk:31994

Hit us up!

(I still check this site every few days).
