_____

another awesome lego movie, something completely different:

_____

Omg that's fucking awsome, I do wonder how much time it took to build it all 😄

If I hear those ball sounds for hours i would go nuts 😛

_____

Wow, and I thought I had too much time on my hands, well I do but wow... enough time to build a whole contraption that takes 7 mins and 36 seconds for one loop AND it is even sped up.. that must have taken alot of time and precision..

just wow.. haha

_____

Your talking a few weeks to months easily there, frame per frame photograph's edited into a movie (like Wallace and Gromit)

Gold medal !
