I was told to post this here by Liquid Snake to get me some publicity 😊  
haha

anyway, Im gonna keep it simple

I make music of Rave, Techno, Rock and dubstep, you can listen to it here:

Well first things nice work mate, don't stop it 😊

**Twisted:** I liked it but you should have more parts like at 2:10 in the entire song cause after a while it

feels to much the sameish.

**Take a Twist:** I assume it's the first made version of Twisted.

**Newbeat:** I really liked that one.

**WindowzRemix:** That one is just awesome 🥰

**Technove:** Also liked that one but wasn't a fan of the background sound at the first part. But it was a really good one though.

**Grizzly:** Sorry don't like that one.

**Joke edition Tetris:** Well the title says it 🥰

**Doop:** Good.

**Brainstorm:** I do like it but I miss something there.

Well this is my opinion and 100% truth 🥰  
Again keep them coming mate. Would love to hear more.
