

## An idea for the site!!! (includes music)

HEY, I saw the games thread for this site, and instead of a game I have an idea for a widget to add into the game section, it is a very fun widget and it is nice to experiment... on this thread you can post links to the songs you have made on this widget..

HERE IS THE CREATION I MADE:

It is really fun and there is a widget edition of this so you can get it on this site 😊

Tell me what you think? i loved it!

I found the embed code as well...

but sadly this forum doesn't allow embedded widgets..

hmm i really like this idea to have something for music as well 😊  
, so we can make music while we use the forums in a simple way 😊

To be honest it doesn't need adding to the page, this thread is good, people can post the songs they have made etc. and we can listen to them and people can just mess around with it 😊
