

CounterStrike Source Sounds - HELP

Posted by VooDoo - 03 Jul 2011 14:46

Hey, well I've been looking for the default CS:S weapon sounds (for all weapons) in the form of a sound file like MP3 or WAV, I've been looking for a long time and not found anything, if anyone here knows where I can find them or where I can download them from would be much appreciated, I will also award "100 VooDoo Points" to any helpers 😊

Terms & Conditions (of VooDoo Points)

VooDoo points do not give any advanced rewards nor do they help you in any major way, they are my form of reward and can be turned into forum karma or free-kills on the WCS server, a free kill costs 100 VooDoo points and so does the Karma, once brownie points are spent you may not use them again until you are awarded more

Thanks

--VooDoo--

Well, obviously they are copyrighted material, and as so, hard to find, only maybe in mule and torrents.

So, give this tool a try

nemesis.thewavelength.net/index.php?p=25
