Sup.

Some of you may know about Your World Of Text already. For those who don't, allow me to explain:

It's a big ass white page where you type stuff.

There's a main page where your creations will last about 3 mins before being trolled: [www.yourworldoftext.com/](http://www.yourworldoftext.com/)

And there's our brand new world, where your creation can be appreciated and kept in good condition for all to enjoy:

ENJOY 😊
