If there are any people who used to like runescape but now they hate it then this is for them 🤔

I used to love playing runescape when i was really young and i've started to hate it along time because of the updates(GE, HD update etc...) and some guys are recreating the exact same game but back to the days when the game was decent and fairly fun the year of 2006. if anyone is intrested

there is a link to the game and the pre-alpha starts in like 4 days 🤔

www.2006scape.com/

Enjoy 🤔

That includes:

- Same mobs
- Same NPCs
- Same quests
- Same music
- Same world
- Same items
- Same xp rates

And most important the same enjoyment 🤔

⚠️ **Warning: Spoiler!** Just something to think about

Wish runescape had falafels(middle east food) instead it has kebab(middle east food) so it's for men

It has all sorts of fancy food 😊
