

## Red dead redemption

Posted by Tunes - 13 Jun 2010 23:59

---

I won't even bother...

Not for the review I'll post from Zero Ponctuation, but for myself, whats the point of great theft horse?! It may be nice as a novel like game play, nice scenes and stuff, but I personally, won't even bother in getting it.

This is a fab game. i personally think i enjoy this game much better than GTA i didnt really get into GTA didnt like the missions etc.. But this game has it all 😊

RDR best game out this year by far

Inazz @ RdR lover 😊

Everyone has the right to opinion 😊

I personally think is the worst release evaaar from rockstar... 😊

😏

They got boxes of sand on the horseshoe minigame for RDR, quite a few of em 😏

And I bet JC2 doesn't have as much sand as the wild west! 😏

I bought RDR for PS3 and have to say I loved it, better than any GTA imho, I'd rather have the option to run over people with a horse, lasso them and kidnap them before throwing them out in the wild, placing down some bait and watch the kyotes and moutain lions feast from a distance (then snipe the mountain lions for their pelts) than steal a car, run a guy over and have only the police to shoot.

Yes it's not up to the standards of JC2, but this has simplicity on it's side! You don't have thousands of side-missions that constantly drag you around the map for hours on end, instead you have the occasional kidnapping or robbery, perhaps even a gang rides into town to cause mayhem, other than that you have the mini0games which you don't have to do.

I'd much prefer having a game where not only police and gang members will shoot at you, but one where animals can be aggressive also. If I'm walking down the streets or GTA I'm always looking out for gang members to shoot before they shoot me, but in the wild west I was just happily trotting along on my horse, got off and was ploughed down by a wild boar!! Where the heck did that come from!?

Always full of surprises, and multiplayer can be great fun if you start working in a team to hold out against enemy players and sheriffs, giving yourself the biggest bounties and being called kings of the west it's got to be my fave game by rockstar

If you want a game where everyone hunts you.. play fallout, and no horse or car options there.. no run option, just FIGHT.

I give it a ride on downloaded copy of the game... sincerely... It was a waste of bandwidth.
