I think I saw it 5 times when it came out. Sadly all trailers so far show combat wich cant have changed much since F3. I want a trailer where they actually talk about the RPG elements that have been improved. But if all goes well this could be the game of the year..for me. Lucky SC2 will keep me busy until this bomb reach my mailbox. Otherwise I would be restless as hell. 🙄

I don't know no about sc2... sadly blizzard is really fecking up the hole online stuff...

I would also like to see some rpg videos, but, I guess they will leave them more near the release date...
