Well, after seeing a few videos about it, I found the game quite addictive.

You can get for free (yet) cause the game costs 8€ or so. [www.minecraft.net](http://www.minecraft.net) onclick=&quot>window.open(this.href);return false;

Also a game server can be setup 🤖

Actually even bigger than 1:1... I notice he said he made it 22% bigger so that he had a bit of head room

That's just mental!
