Got this from Notch's Twitter. Bizarre...

Last two are particularly interesting reads. I love how he can tell all of this about the game from a video... And yes, all 500,000 + (600,000+?) of us are brainwashed, corporate zombies..

I'm like Morpheus from Matrix waking you up, showing you the truth that might be shocking to you, the truth that will irreversibly change you life, making it better as you'll be free, your mind will be free. Unfortunately, if you watched the video on Minecraft site or videos on YouTube, you irreversibly lost that time.

I'm wondering if this is the same guy who does the Gavick Joomla template descriptions 🤔

I fact is really weird how the heck can someone write those kind of things, based on a video on minecraft page from a roller coaster. (I must do one of those 🤔), he is an very stupid person looking for attention...
