

## Patapon 3

Just thought I'd make a topic about these games -

The Patapon games can look really childish and what not - but they actually have a really cool and pretty unique style, and are really fun to play.

I love these games, and have been playing them since the first one came out.

Anyone else also play them?

Love it!

Didn't know 3 was coming out.

I play it on my PSP, it just rocks!
