Anyone had a play with this? Is it a good idea to spend some monies and get it as a family xmas present?

The Wii is now gathering dust ...

I'd look at what games can use it if you dont like the games is there much point?

and the Wii only gathers dust due to the lack of quality games (i know mine is)

Well, this xmas wii IMHO has some nice new titles for family.

The kinect.. well... I don't see myself boxing like a lunatic around house or spending 4 hours with my arms trying to drive a car... oh the pain!

The kinect may be awesome for fitness people or kids, for me... is a no go.

I still do prefer the wii...

my 2 cents 😊
