Last chance to get this at alpha stage is tonight...

Advantages ...

Half price

Free upgrades to ALL future updates

An original indie game quite unlike any other...

Hopefully TWK server soon!

Get it very quick - Minecraft goes beta tomorrow...

Still lots of bugs to solve, Notch is getting around them, when the server enters beta, we might have one or two, but won't be hosted at the current TWK game server, simple fact, they eat lots of resources that would make the CS:S crawl.
