

Dragon age 2

Posted by Johannicus - 11 Mar 2011 01:57

Today marked the release of DA 2! I ofc immediatly set of into the world as my alter ego "Johannicus" the mage, loading my old DA save as historical reference. Everything so far has been made better exept for one thing, so far the main story hasnt pulled me onwards as I dont know what the story is, atleast not from my characters point of view. The side quests are many and with good stories(they are actually more compelling than the main plot).

So I'll be in Kirkwall for atleast a few days =)

Charming..isnt he?

So far this game gets 8/10.

After 30 hours of gaming I finally beat the game and like a good book I just want more!

So here is a tiny vid I made from the adventures of my mage, without spoilers ofc =) Enjoy!

Does the game have side-quests, DLC etc?

I'm still ploughing through DA 1 at the moment, bought the ultimate edition with everything, i have awakening to finish and 2 more DLC's... so far 50 hours of gaming.. =/

I'm really hoping DA 2 isn't short. I may be getting it at the end of march

Nice 😊

I look forward to playing it then hehe.

I hope the main character is as bad-ass as they said.
