

Running on older version of game????

Posted by Grizzle - 15 Apr 2011 15:15

I wanted to connect to the wcsmenu server but says its running on a older version of the game? what i do? 🤔

Wcs mod, Sourcemod, metamod and eventscripts are down. They're all connected so if 1 goes down, other will fail aswell.

Will try to fix it assap. With this is mean updating as soon as updates are launched.

I rly rly rly Hate Valve

Pooky have you tried downloading the latest [MetaMOD: Source snapshot](#) and [SourceMOD snapshot](#) ?
The latest released stable branch for metamod was at 14-04-2011 14:19 for windows - at 14-04-2011 22:48 for linux. The latest released stable branch for sourcemod was at 15-04-2011 01:35 - at 15-04-2011 10:20 for linux.

Might work trying them 😏

Testing them now, An update for eventscripts will have to wait for a while, Mattie is out of town for the weekend...

Jolly ol' yeay
