_____

I have now added a trainsystem to my Kingdom and Gmeisners Realm. Signs have been placed close to the spawn with direction to the trainstation. I have also made a 3-step tutorial for how to ride it to us. Please feel free to take a look around aslong as you can behave ☺

New things in my Kingdom:

Trainsystem to: Spawn, Docks and Mountain top

Garden Dome

Underground lair

Tallest tower on the server(It goes all the way from the adamantine to the clouds)

Docks (Two ships are currently docked)

Population has increased to 3 =)
