There is five questions so please answer them and in order.

1.How often do you play on twks wcs server? Well, about 3-7 hours a day

2.What map would you like to be the main?.(when server crashes) - Does this even matter? its already been changed recently we don't need to make more work for the admins..

3.Do you have any problems/something is wrong?. Not really, a few overpowered races but they aren't important..

4.Would you like to make less races?. No, I think if anything we need more.. more to choose from.

5.What 1-3 races would you like admins to delete?.(the worst ones you think of). I don't think any, but if HAD to choose id say silver surfer, light bender and the monk one that switches positions with who shoots it..

Why is any of this important? I think that if there was going to be ANY change to the races the only change I'd suggest is the level gap between races, but even that is fair... so I don't really think these changes are needed.

Thanks

There is five questions so please answer them and in order.

1.How often do you play on twks wcs server? **Almost daily**

2.What map would you like to be the main?.(when server crashes) **I'd prefer a random map instead of the same map over and over**

3.Do you have any problems/something is wrong?. **There will always be some issues but I know everyone does there best to fix them and just mentioning them is enough. No reason to keep whining about them constently**

4.Would you like to make less races?. **Why make less ? The more races the more it keeps you interested and busy exploring more.**

5.What 1-3 races would you like admins to delete?.(the worst ones you think of) **Delete .. None. There all good I would say some need to be a bit less in power, as example zen monk has allot of nice stuff but the parylize makes it to much but that's just me and there more races. But surely I wouldn't delete any and it's normal not every race can be balanced perfectly so just deal with it like I do** 🤔

1. How often do you play on twks wcs server? **As often as I can, which tends to be every day, or every other day**

2. What map would you like to be the main?(when server crashes): **A random map would be good**

3. Do you have any problems/something is wrong?: **Not really, but I think Light Bender is a bit over-powered, and Zen Monks paralyze is just stupid**

4. Would you like to make less races?: **No. The more races the better**

5. What 1-3 races would you like admins to delete? (the worst ones you think of): **Can't really think of any, but I haven't got that far down the list**
