I thought it would be nice to collect all screenshots of built stuff in one thread. So post your creations here if you feel like showing the rest of the community your build skills.

In the recent days I have been a bit busy. Or as Tunes said "Your building like there is no tomorrow"; 🤔

My kingdom has grown so much aliens has arrived 🤖

Its about 45-50 blocks across and its 3 floors high inside.

You can get up into it without mods or commands, but

I suggest you bring a weapon as its not empty 🗡️
