

Anyone got Portal 2?

What do you think? Now that I've completed all the coop levels I'm bored of it now. The only thing to do on it is do the achievements.

I would wait until it goes down in price. I don't think it's worth that amount at the moment since it's very short (around 7 hours) and the co-op, me and a friend completed it in about 3 hours, so overall content of about 10 hours isn't worth it imo

I got bought Portal 2 for my birthday as a Steam gift.

It's an amazing game... MUCH longer than Portal 1, I was very suprised.

At first you think once you've done the test chambers the game is over.. but.. there's an entire second part to the game right after, at least another 20-30 test chambers then the "escape".

I loved every minute of it.
