

TF2 Server

Posted by deN - 28 Jun 2011 17:41

Id really love it, if TWK got a TF2 server : D Totally understand if u guys wanna focus on CSS and MineCraft atm, but this could help us get more members as TF2 has become a free game to download and play (something i enjoy very much, and i think there are other members that does aswell, except YooDoo, 🍌)

Soo if u could be so kindly to discuss a TF2 server, it would be lovely

perhaps ds or tunes can maybe look into this , as we have a couple of servers not being used alot , don't know if they can be changed to tf2 or not.

We deffo could have some TF2. We've tried it before, but now with F2P, maybe there would be more demand.

I can't personally do the biz, but we can make some room on the dedi and disable a few of the unused servers without too much hassle.

Noo Noo, really, sure I don't think that a TF2 server would be a bad idea 😊
In fact I think its an amazing idea, sure I don't like TF2 much anymore, due to all the hackers but I'm almost sure that if TWK got a server then there would be no hackers on there.. TWK are good at making sure of this stuff, like the hackers on the WCS server get banned. 😊

Other TF2 servers rarely have admin's and the admin's they do have always abuse by giving extra speed, buffs and modifications to themselves.

But TWK Play fair 😊

Nice idea 😊

I think it would be a very good idea 😊
I would definitely start playing TF2 again if we got one.
