I have 8 xbox games and 1 xbox 360 game to sell. The xbox has all the cables and two controllers, controller S and one logitech wireless controller. Also has xbox dvd remote.

Colin you joker! 😏

To be honest on another note (more relevant) personally I would never sell any of my old games or consoles. They are memories from my childhood and even now on occasion I will get out an old classic and have a blast! Love a bit of retro now and then 😊

I have every games console going right back to the Atari ST with "double disk drive!" and the Amiga 500! Yeah baby!

Can anyone top my collection? 😏
