The closed beta is open. Just verified my key, but the download button isn't working

EDIT: You need to download the client through the Downloads tab, instead of from the window after you've verified your key just FYI 🤔

You need to create a Nexon account, log in on the Vindictus website and click "Verify Beta Key"

And that's unfortunate Liquid :/

Create an account [here](#) .

Then the Vindictus website's [here](#) .

I think the verifying will be pretty obvious, since the buttons massive 🤔
