Well, no trailer yet, atm more 7 days for it, I've read somewhere its location may be in LA (Luis Antunes?) 🤔

Lets see what comes out of the most awesome games in history, at least for me, since I've been playing it since GTA (yeah, with no numbers on) where it was top view and played on network via IPX (its a networking protocol, dead).

I've heard it'll be set in DC 🤔
but I can't wait. I'm jizz all over my screen when I see the trailer 🤔
