Well,

Hi there all,

I haven't been playing Counter strike source for a while, because i'm addicted to L.o.L. at this moment.

There already have been a discussion around this, about having a lobby with different players from twk, who also play LoL.

Anyway, i hoped that every guy who has this adds me,

And if we have enough players, we can make our own lobby from 5 players each time.

If you guys thiink, League Of legends, wtf is that?

please visit : [signup.leagueoflegends.com/en/signup/ind...m\\_campaign=motv\\_test](https://signup.leagueoflegends.com/en/signup/ind...m_campaign=motv_test)

I hoped, more of you can create an account on it, to play with us.

when you download it, you should first start with the tutorial, which is quit very helpfull!

If you like it? then keep playing it ^^

For people who didn't add me yet,

My name for adding : &quot;NoobgameonxD&quot; (without the brackets)

Thank you for reading! (and downloading if you want ^^) 🍌

regards,

Deaglegameon aka Matthias
