First of all, This game WILL be awesome!

Just thought I would make a thread for anyone that wants to talk about it and share any news that they have come across that is if I'm not the only one waiting for this! :O

Assassin's Creed Revelations: The Lost Archive DLC:

Just some general information about the DLC that came out, and a little clip, personally i have played this DLC and didn't find it that good, there was only 1 piece of information i would call 'interesting'

Assassin's Creed III:

Connor:

This is just about the character that you will be playing in ACIII, no his name isnt connor but that is just a nickname that people will be able to pronounce 🗨️
