I'm just playing through ME1 to get my perfect game until PCSpecialst get back to me on the disc drive (THAT NEVER WORKED!)... Yeah that's been over a week now *ahem*

Well I was driving around in the Mako trying to figure out where the hell it was trying to go when I wanted to go straight and saw this:

not the Maw... THE SIGHT! It's an upside down Xbox Power button! 🤔

EDIT: Image y u no load? D:

hehe

When you finally get around to ME3 I hope you are tired of all the dialog choices you had in the other games, or you will be dissapointed.. 🤔

It's ME1 what else I gunna find when the Mako keeps deciding to go left, right and upside down when I want to go in a straight line? 😊

On another note

Tali: My people... I.. Owe you a great debt. One that I could never repay you enough. All I can offer is my solemn promise to stay with you until Saren is caught

Sheperd: I wouldn't want anything more

Those fated words that RUIN ME1!! 😊

if your saying you want to do more with tali 😊
then ME2 will be perfect for you as well as ME3
