

Left 4 Dead 2

Posted by Luckie - 19 Nov 2009 15:39

Right come on who's got it!? I've had it since Tuesday! 🙄

Whoever's got L4D2 should come on and we'll have a little TWK L4D2 night of it! If we can get 4 people we could do a campaign anymore and we could have a Versus match so I can tank you all (see what I did there?).

WHO'S UP FOR IT!?

Going to download it, pirated. I don't support this game, this should have been a patch for L4D, lazy developers.

Actually agree totally about this being a patch/expansion pack.

You could say that about practically every single sequel known to man though lol

Though does anyone agree with me that L4D1 looked better? Or is it just my eyes?

I'll have to wait until a proper crack is released, this far the cracks has been nuked (nuke refers to labeling content as "bad").
