

## Aliens vs Predator

Posted by Johannicus - 19 Jan 2010 20:47

---

This game can now be pre-ordered on steam and I would love to play some multiplayer matches with you guys when it is released, this is one of my all time fav FPS games so its like second christmas to me 😊

Depending how many that gets this game it would be cool with a community match on a dark evening 🍷

Used to play the very first one.

Will have to wait and see what this one brings and how it is worked out.

Maybe... lol
