Christmas competition for FUN!

Posted by DreamState - 18 Dec 2008 14:54

_____

ok, here's a Chrimbo competition based on an idea I have seen elsewhere.

I have edited and cut-out a extremely cheesy picture of Santa Claus ☺
oh yes ...

It should be attached to this post in a png which is transparent when I saved it.

So, the idea is to fire up your favourite paint program and superimpose the cutout into various scenes bound only by your imagination.

There aren't many rules really apart from a) keep it clean (ish) b) you have to use the Santa Claus image supplied.

I've done two quick *quick* examples to get started - I have a few more ideas when I get some time ... ☺

gl hf ☺
