Right here's a summary of who has put down to play for each team, tell me if it is right:

UK: Luckie, DreamState, Eskimo, Tin

Scandinavia: Vandricko, Slab

Floater: Vogon (Portugal), SyverSpace(Don't know where you come from)

Can we get more players please? I'll assume there will be someone to fill up the 5th spot for the UK from team 1 but what about Scandinavia? Will we have to use players from other countries to fill up the five slots? Can you please put your down if you are able to play ASAP as I want this to be finalised.
