

map making? any1 xD

Posted by eskimo - 06 Feb 2009 20:09

Right i have had a go at map making and decided I am "okay" Well I just wondered if anyone would be up for a map making competition.. As I know not many people know how to make maps in the clan, which is why I have decided to put a generous time limit on it. The map is going to be a match map like dd2, inferno, nuke, dust, cbbble etc... Must have at least 2 bombsites, 2 spawns and two pieces of twkgaming advertising (twist, I think sooo) xD

I will give it 2 months (8th of Feb. to the 8th of April, or sooner depending if all maps have been submitted by then xD) for the map to be sent to DS, then we have a map test and the map with the most votes (from the clans community) wins...

Anyone up for it ?

nah cba lol - takes ages to make a map, particularly a proper CS:S one and I've got way too much to do for like the next 4 months ☹️

I would, but currently working on 2 maps for GGN plus a major project for a mod, STORM.

No time ☹️
regular css maps take too much time to be right...

Well NCore, it's a very long and arduous process using SourceSDK....
