---

Ok, you know the drill!

It doesn't need to look amazing - it's the idea that counts - so get your thinking caps on for the October caption competition.

In the UK we have some annoying iphone adverts - so this months caption competition is called..

**'....there's an app for that ...'**

Simply, the smarmy-dudes at Apple think they have an app for everything ...

... so find something funny, inappropriate or random to make an app for..

Here's one to start off..

As always, click the image to fully view.
