1v1 Tournament

Posted by Gazza - 14 Oct 2008 19:14

_____

After a bit of discussion it looks like the 1on1 Cup Will go ahead.

This tournament is only available To TWK members, and trusted members who are part of the community. A.k.a no randomers, the main aim of this is just purely for fun but there may be a small prize available chances are there will be.

The Rules :

1. No hacking of any sort

2. No ghosting

3. No flaming

4. Best of 30 Rounds e.g First to 16 wins

5. General goods sportsmanship, no raging... bla bla

6. Some rules may be map specific but will be known to you at the time.

The rules aren't there to be broken. Most people entering will be a part of the TWK clan and you guys pride yourself in being laid back, and good natured.

Admin's will choose players allowed to enter based on whether they think the player is classed as a regular.

Sorry for the long post but basically we need to sort out some things aswell. We need to arrange when it shall be done.

It will be on a Friday/Saturday or a Saturday/Sunday

this weekend or next if you can post a reply saying when you are able to play and whichever we can get the most replies in we will go for.

Ok This post will be a run-down of tomorrow night. any questions try and ask asap

Firstly, make sure you have ventrilo installed and working BEFORE tomorrow!!!

Secondly, please download the maps needed and copy them to your map folder. Sometimes, the maps refuse to download from the match servers.

Download the maps from here ...

www.twkgaming.com/index.php?option=com_d...gid=38&Itemid=57

The tournament will be organised into 2 groups, Chosen at random a Group A and a Group B, Only people who werent chose at random were me and ds, because were running it.

Group A consists of :

Gazza

Slab

Dynamical

Premi

Grennie

haze

Groub B consists of :

DS

Ripper

Tin

Ncore

Galli

oxy

Both groups will be given a server each - and a vent channel each, We will try and get as many games in as possible But it is most each person will get 2-3 games

Me and DS will be counting up the scores with the qualifying prospect being Top 2 (people with most wins)

After the group stages qualifiers will then be moved into the Semis and losers well theve lost, im not gonna go into too much detail about how its layed out ill just say who is playing who 🙂

Map choices:

Group stages - Aim_Map - No Awps allowed,

Semi Finals - Awp_India / Aim_glockon - use whatever you can find

Final - Awp_India / Aim_Map / Aim_Xeagle - no awps on "Aim_Map" other than that anything

Tried to suit as many people as possible with those maps

Each game will use the ED CFG, Mr 15 - first to 16 wins. Games will not play all 16 rounds and i covered the rest of the rules in the first post

Please be around tomorrow for 6:50 GMT/BST Sharp so we can get everything organised i know somepeople wont be available at that time but that is for those who havent already told me they can make it

I hope i havent missed anything out, Ds and I both know hows were running it and if your not sure ask one of us tonight any questions just post em in here or ask me, Nothing much else to say other than have a laugh and Enjoy it, if its a success it may run agian if its a fail then i get laughed at. 😊

_____

The layout for games for Group B is as follows:

DS v Ripper

Tin v Ncore

Galli v Frosteh

DS v Tin

Ripper v Ncore

Tin v Galli

DS v Frosteh

Ripper v Galli

Ncore v Frosteh

This ensures everyone plays three matches.

The order the matches are played in does not matter too much so we will get people playing their respective matches as we go along.

The matches where determined by the original 'out of the hat' order using the following layout system.

1v2, 3v4, 5v6, 1v3, 2v4, 3v5, 1v6, 2v5, 4v6

Any mistakes, please let me know asap 😊

OK.

Both servers have been reset today.

Some further information.

for aim_map the freezetime is ZERO.

Please note this. The round starts immediately so get ready to move.

Group A will use our regular match server.

connect 85.234.149.109:27032;password salvoftw

Group B will use our second match server.

connect 85.234.149.109:27068; password salvoftw

The Source TV IP & ports are as follows to watch the matches..

Group A:

connect 85.234.149.109:27033

Group B:

connect 85.234.149.109:27061

Due to a couple of last minute alterations we have had to swap teams a little.

Group A will now be:

Gazza

Slab

Grennie

Galli

Group B will now be:

DS

Ripper

Tin

Frosteh

For both groups the match layout will follow this format:

1 v 2 / 3 v 4 / 1 v 3 / 2 v 4 / 1 v 4 / 2 v 3

Therefore the matches are as follows:

Group A:

Gazza v Slab

Greenie v Galli

Gazza v Greenie

Slab v Galli

Gazza v Galli

Slab v Greenie

Group B:

DS v Ripper

Tin v Frosteh

DS v Tin

Ripper v Frosteh

DS v Frosteh

Ripper v Tin

We may do this twice if we get time 🙂

A third group will accomodate those not able to get on earlier.

GL + HF.
