DJ Ear Worm - United State of Pop 2010 (Don't Stop the Pop)

im not sure if 2010 has been a good year for music, but i see a lot of good music here and also am i missing some. the song doesn't fit together at some places but what can you do when your gonna mix 25 songs together.

I think the song is great but there are too much Ke\$ha and not enough songs, but its still a lot of work to make this.

Hope you enjoy the song and leave a comment here and on youtube.
