Kick-Ass and Inception (which I might watch tonight) totally deserve to be in there.

I've not seen the rest but will make an effort.

I'm thinking Toy Story 3 should be up there.

And The Twilight Saga: Eclipse.

The last one was a joke. 🤪

OFC I have seen the original Predator! Nothing beats that, but Predators is not a remake, its a follow up, it basicly takes place after Predator, but before Predator 2.

I 100% agree with inception being #1, if you like Inception i'd recommend you guys to watch "The Prestige".

Predators really sucked.. i had high hopes for it.
