I tried to understand, but I didn't get it. Probably because I'm not from Scotland 🤔

The whole ep is up on the bbc iplayer, watched it last week, he's a funny guy 🤔

I think every englishman has had that problem with scottish money, dno why no1 likes to accept it, it's as if they think all scottish money is counterfeit. I even got denied when i tried using a scottish 50p...just take the hit to your pride, accept our currency, and we can all live happily ever after 🤔
