Well I heard this song a long time ago and yesterday it relistened to it and now I cant get it out of my head 🤔

And the video is so beautifully done its worth watching on fullscreen! ENJOY!

Yea, everything about the song and video remind me of other musicians...

the beginning of the song reminds me of "Scooter" the band..

the rest of the song reminds me of pendulum..

and the video is very much a similar style to Gorillaz

3 of my favourite groups/artists and yet.. I still am not too keen on this song 🤔
