LOST

Spoilers.....

.....

Ok.

LOST

At least one person's gonna bite the big one tonite (actually, everyone will bite the Big One if Jack has anything to do with it!) So, who's it gonna be?

Jack - God I hope he dies, I can't stand the see-nut (only I think the actor may be the only one contracted for all six seasons!!!!)

Ben - they'd be absolute noobas to kill off the best character on TV at the moment!

Desmond - one of my fave characters, but let's face it he's done fook all all Season

Sayid - could the kindest, nicest most charismatic psycho assassin ever be next for the bullet?

Hurley - they better not fookin' touch a hair on his Hurley head!

Miles - he's grown on me, especially with his Hurley double act

Frank - please don't kill Frank! Please! Please! Please! Please! Please!

Ilana - please kill Ilana! Please! Please! Please! Please! Please! Please!

Jin - nah, not after pretending to kill him last season

Sun - nah, she's still got loads to do!

Personally, I fear for Sawyer, Juliet and/or Kate as the triangle has been so "carefully" manipulated into place to maximize emotional intensity and personal jeopardy. If I had to chose one, my money is on Sawyer.

☹️

Or Juliet.

☹️

Or Kate.

☹️
((

Dammit!

As long as they don't kill Kenny (the bastards!)
