This guy, which calls himself Dub FX, has a great talent. It's all done by his voice and a loopmachine/recorder. You can also buy his CDs in stores 😊

With some further effects, pretty cool 😊

Well, some of you know how I am into the beatboxing scene, had already seen him on other acts, he also went to the last yealy beatbox convention (boxcon) and only for uk luckers 😊

He has what beardyman does not have, a nice and pleasent voice.

Great artist!
