Liked it.

Some sounds remind me of Roots Manuva (My fav Rap band)

Nice work there mate.

Some sloppy rhyming here and there, but overall I think it's not too bad.

Like anything it takes practice, you seem to be set up in a clique with beats/producers and MCs to flow off, you'll progress quickly in no time.

Bust your thesaurus out and get writing some bars with more metaphors and similes and there's no stopping you.

Welcome to the forum btw 🤔
