

Burnistoun

Another sublime Scottish comedy from some of the writers of *chewin the fat* and the fantastic *consolevania*. Well worth a watch - especially for the battle with the voice activated lift (you know what's coming with a Scottish Accent....) and *2 Litres of Justice!*

Currently BBC iPlayer TV programmes are available to play in the UK only, but all BBC iPlayer Radio programmes are available to you. Why?

If you are in the UK and see this message please read this advice.

Go to Radio channels home page
