The photos are really incredible. The colour in the second photo (the fountain) and the plane is remarkable. The museum entry is probably my favourite out of them though due to the contrast and angle of the building to the sky.
Bizarrely, true this, I was listening to Naqoyqatsi by Philip Glass when Vogon showed me the post (I had missed it in the barrage of posts today!).
The music fitted perfectly  http://www.twkgaming.com/components/com_kunena/template/default/images/emoticons/emoticon-0102-bigsmile.gif alt=""

You should consider selling framed prints.

DS, framed prints, I thought about it, I don't really do this for the money, only for my personal pleasure, also, you can check me on panoramio and gigapan

The one on gigapan has gamma problems, this sites, like mine, alter the gamma correction by lowering it, so I've just got the hang of it with this new one

And before you notice it, yes, my camera ccd was dirty as hell on earth 

, just got the thing clean.
