There is no problem with the actual signature, I love the signature that Liquid Snake made for me but it always comes out so tiny on the forums.. my other one also did this, was just wondering why :O?

yeh i noticed that with mine to 😊
isn't there a way the size could be set a little bigger coz full size it comes to its full glory 😊
, and i never make sigs to big anyway coz it makes it look horrible and you get the admins on ur roof 😊

like the sizes ive used for voodoo's sig where 450 x 200 pixels
