I had a try on another simple forum signature, don't judge me on the same level as Nil 😊

Yeah, it's afro samurai. Love that anime (even tho it's short)! Great drawing-style

I didnt like it, drawing style was ok but not my kind of anime. I like when they mix 3D and regular anime like Appleseed, Steam Boy and Sky Blue. But i also like animes like Ghost in the shell where you have depth. 🤔

One of the best anime series imo is "Full Metal Alchemist", love the story and characters! 😊

Seen all of them, love that 3D depth style too.

A new try, it's too big to be a signature, but I can just resize it or something 😊
What do you think?
