

New site design

Posted by liger - 25 Aug 2009 07:47

WoW. VERY nice. Feels also "smooth";

good job

PS: when clicking on twkgaming.com logo shouldt it redirect to homepage instead of forum?

Thanks mate.

Hard work but 100% worth it, we're very pleased with the result.

I think its phpbb related as normally clicking the title takes you to the board index. Something to look at.

Pleased with the final look 😊

We are working to remove the final issues such as unreadable text on certain styles!

Work in progress 😊
