

Request : Flash man/ woman :D

Posted by TheBlackWaltz - 01 Dec 2009 13:32

Hey Guys,

Been asked to do a website for one of my uni modules (in a team *sigh*) and we have a great yet simple flash idea for the site. Well I say simple but hell I don't know where to start with flash 😊

Any ways if anyone thinks they maybe able to help (even if its an idea of how we could get from the start image to the end)

Start Image: will sort link

End Image:will sort link

The End image is just the Logo with the dotted line not all the jaff around it 😊

Thanks in advance for any ideas or the holy grail of someone loving me enough to have a bash 😊

I would see the end image, but wating 500 seconds for the dl.. not really, attach both pics to the forum, it will be alot easier.

If you have something on the screen, in case of doubt use the magic print screen key, open in mspaint and save the capture 😊

Dont matter now all sorted 😊

Cheers though 😊

QOOOOHHH HOW I WISH THIS WAS TRUE 😊

Qk so then a mate of mine said sure not worries then moved away and wont answer his phone 😊

Basically it would start like this:

thats pretty easy with flash tbh. It is all about the tweening 😊
I would do it but I do not have macromedia flash on this computer due to the recent reformatting. I may be able to help you if i can get hold of my old copy (which is lost) xD
