Just ordered MS Office 2007 for £36.95 (inc. a £1.95 transaction charge) off the above website. I had to check to see if this was genuine and it looks real enough lol. I'll warn you's if it isn't when I have no money in my account lol.

Anyone can buy it - students, parents, guardians, teachers and even your grandparents can buy stuff from it.

Just thought some of you may be interested in it - I mean MS Office Enterprise Edition 2007 for £35 when it's meant to be like £500. Can't complain. Unless it really is a scam..... let's hope not. I hate MS Office 2007 - I like my Office 2000 as I know how to do pretty much everything with it. And now with 2007 I can't find a thing. But hey, the Uni uses it and I'll just have to get used to it. Anyway, don't know if this'll be of any use to anyone but have a wee look anyway.

Office 2000 is "just" 10 years old...

When I started using 2007 I had that feeling, but trust me, its much better and its actually all there, just not on menus on top... 😊

Office 2000 is boring and dull looking. Tried 2010 the other day...not that big of a change from 2007 :|
