

## From logitech mx 510 to Razer Deathadder

Posted by liger - 30 Nov 2009 22:09

---

Bought Razer deathadder, mainly coz i had a check to a shop and

1. nothing better to buy there
2. my scrollwheel was "overscrolling";

-----

2 things i notice right off

1. omg it slides so easy, nice (maybe its just new mouse effect, dunno)
2. i miss 2 buttons to scroll screen. Ill see how much it will piss me off. Im pretty lazy so scrolling could annoy me 🙄

Im talking about button in front of wheel (scroll up) and behind (scroll down)
